

AT-Venues™

Managing resources effectively
is the key to an effective
organisational strategy

www.at-venues.com

AT-Venues™: A Powerful Room Scheduling Software helps law firms streamline their meetings and event scheduling. AT-Venues™ helps you to maximise utilisation of rooms and resources and improves communications internally and with clients.

AT-Venues™ is an efficient, web based, low cost, expandable solution for your growing room scheduling needs and providing benefits on any scale - from smaller firms to global enterprises.

As with any other service based organisation you have meeting rooms, training rooms and numerous other assets for which you need an efficient scheduling software to better demand and occupancy based reporting and utilisation. From hot desks, data rooms to meeting rooms, AT-Venues™ provides an easy and efficient way to manage everything.

Improving internal and/or public access to your venues and services for customers and/or staff is critical and making the right assets visible to the right audience is the key in ensuring minimal overheads. By selectively making your venues available to external clients you can significantly improve the earning power of your assets whilst minimising the cost of managing bookings.

AT-Venues™ is a practical and affordable venue scheduling software that robustly addresses the scheduling challenges faced by the organisations having multiple types of assets spread across numerous locations and sites. Technology refresh need not be a costly exercise.

Key Features:

- Web-based tool with user-friendly and intuitive screens.
- Advanced booking approval system helping you control who makes room or venue bookings.
- Automated and customisable alert notifications via email and SMS
- Integrated with Outlook®, Entourage®, Google® Calendar and iCal®
- Real-time reports providing analysis of daily and weekly bookings, reports on room usage, reservation summaries and summaries of cancelled reservations.
- Manage unique privileges for administrators, booking administrators and self service users.
- Can be integrated with your existing IT systems, or other ikonami systems.
- Stable, scalable and highly customizable; easily accessible through any internet browser for scheduling important events.

The Benefits of AT-Venues™

AT-Venues™ enables you to:

- Set up and monitor all your resources centrally, providing a centralised view of your asset and their utilisation.
- Provide improved internal and/or public access to meeting rooms, venues, resources & services for customers and staff.
- Set up your rooms or resources in detail including the ability to define accessibility, purpose and availability of additional services.
- Define room, venue layouts and resource specs.
- Group and instantly view available resources by location and site.
- Set up multiple costing and pricing models for your resources.
- Search for resources by purpose, location, availability and features — and instantly reserve them.
- Generate seasonal demand & forecasts reports.
- Make efficient use of different room layouts by using them for their specific purposes.
- You'll see noticeable improvement in staff performance, productivity, accountability and accuracy simply by electronically managing your scheduling processes.
- AT-Venues™ is completely web based so it needs no installation – all you need is a computer with an internet connection and a web browser. You can start your room scheduling efficiency immediately!

AT-Venues™ is relied upon by a growing number of businesses from consultancies, training providers, law firms, hospitals, clinics, to equipment leasing companies across the world. They have all discovered that implementing an intuitive, scalable and flexible system for room scheduling and resource management streamlines their operations, improves efficiency and makes their businesses more successful.

With AT-Venues™ get a firm grip on your organisation's room and resource management. Get visibility of both utilisation and occupancy, stop the waste and generate greater efficiency and revenues.
